VisualPay 32 is the advanced model of Cashmatic, featuring enhanced functionality and unparalleled adaptability. Designed to meet the needs of the most demanding commercial activities, it ensures efficiency and security in every transaction. Choosing VisualPay 32 means adopting a cutting-edge payment solution that enhances operational efficiency, increases security, and provides an unmatched customer experience. Perfect for any business aiming for innovation and modernity.

Functional features

Cutting-edge Technology

VisualPay 32 integrates the latest technologies for payment management, ensuring speed and precision in every transaction. It allows the creation of an autonomous checkout point where customers can select, order, and pay completely independently, at their own pace and respecting their personal space.

Broad Compatibility and Advanced User Interface

It supports all major electronic and digital payment systems, ensuring fast and seamless transactions. An advanced and user-friendly touchscreen interface, on a large 32" display, makes VisualPay 32 easy and intuitive to use for both customers and staff.

Ergonomic and Modern Design

With a sleek and functional design, VisualPay 32 integrates seamlessly into any commercial environment. Configurable to suit the needs of the business, VisualPay 32 can serve as a fully autonomous tabletop station or a kiosk solution to streamline and improve queue and order management.

Enhanced Security

Equipped with sophisticated security systems, VisualPay 32 protects customer data and ensures secure and safe transactions. The same level of security is also provided to the business owner, who can monitor and track their earnings at any time.
